## EDUCATION

Higher Bachelor degree in Computer Science  
Kaunas University of Technology, Lithuania  
Secondary Gymnasium of Laurynas Ivinskis, Lithuania

## SKILLS

I am senior C++ developer with 8 years of work experience. Usually my daily development environment is Microsoft Visual Studio C++ 8/9/10. Mostly used technologies:

- STL
- BOOST
- WINDOWS API
- WTL
- MFC/COM/ATL/WinINET/ActiveX

Occasionally I use:

- .NET C#
- PHP/MySQL

Also I have done some development on Linux, for my own projects, using NetBeans and CodeBlocks environment.

## EXPERIENCE

10/2006 - present

**Enigma Software Group LT, LLC**  
[www.enigmasoftware.com](http://www.enigmasoftware.com)

Position - Senior C++ developer. Design and development of core commercial company products:

- SpyHunter - anti-malware product
- RegHunter - registry repair application

Working in team at international company with offices in US, Lithuania and Bulgaria.

Security Industry requires broad use of various technologies starting from basic Windows API to Kernel Mode Drivers. I really like solving problems, challenges which arise in creating anti-malware product. It requires to use various interesting algorithms, optimizations and data structures to achieve maximum performance.

Most important achievements:

- 2007 SpyHunter 3 released.
- 2009 SpyHunter 4 released.
- 2010 RegHunter released.

11/2004 – 10/2006

**Elektroniniai Sprendimai, LLC**

[www.esolutions.lt](http://www.esolutions.lt)

Position - C++ Developer. Design and development of various internal tools mostly web scrapers/spiders for capturing/parsing a lot of various data.

Also, here I started my carrier in security industry – developed my first spyware/malware scanner and remover, it was a nice experience and I learned a lot.

06/2004 – 11/2006

**Baifoteka, LLC**

[www.baifoteka.lt](http://www.baifoteka.lt)

Position - C++/PHP/HTML Developer. My first serious job while still studying, I was working on lot of various projects here, from few web pages with some CMS, to warehouse accounting systems (PHP/C++).
